PREFACE

On the ensuing pages will be found the genealogy of the Allen Family during a period of a century. This record is the result of over two years patient effort spent in gathering and tabulating the necessary information. Those who have never had experience in collecting data of this kind would be surprised at the difficulties and the amount of correspondence necessary.

The record begins with Joshua and Eunice Allen, and then follows, in genealogical order, their children, the children's children, etc., down to the present time, with blanks left for any additions in present families. This arrangement makes it possible to keep the record correct and up-to-date.

Joshua and Eunice Shaw Allen were born in New York, their parents having come from England. Their children were raised in that state and lived there until about 1847, when they came west and settled in Indiana, near Hebron. The Allen generations have been a peaceful and law-abiding family.
